

Distribución de Churn

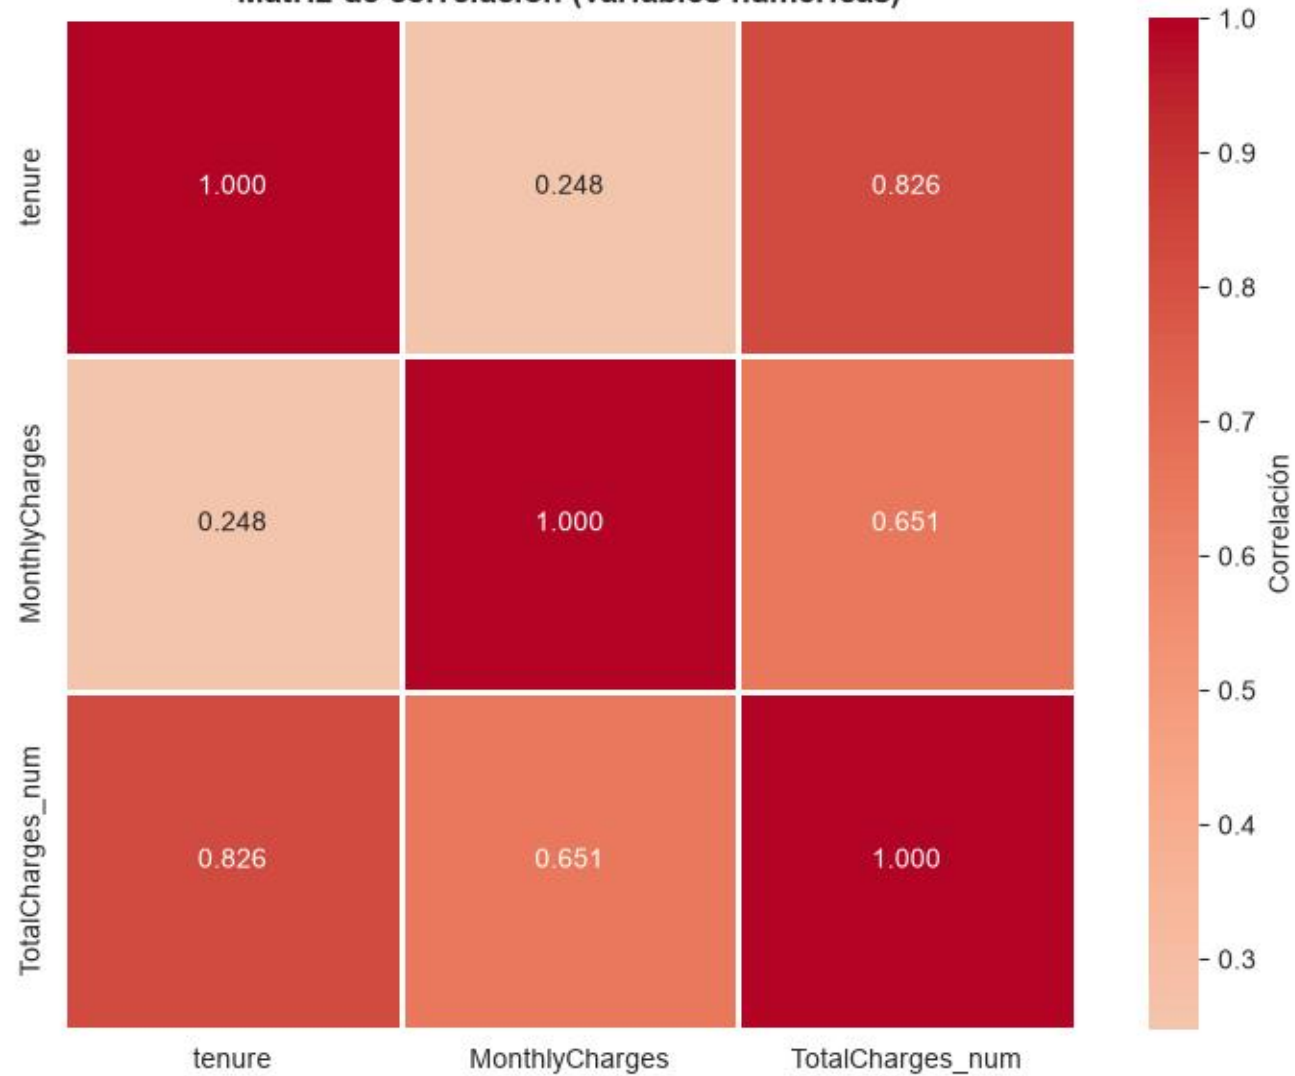

Distribución de variables numéricas por Churn

Variables categóricas vs Churn

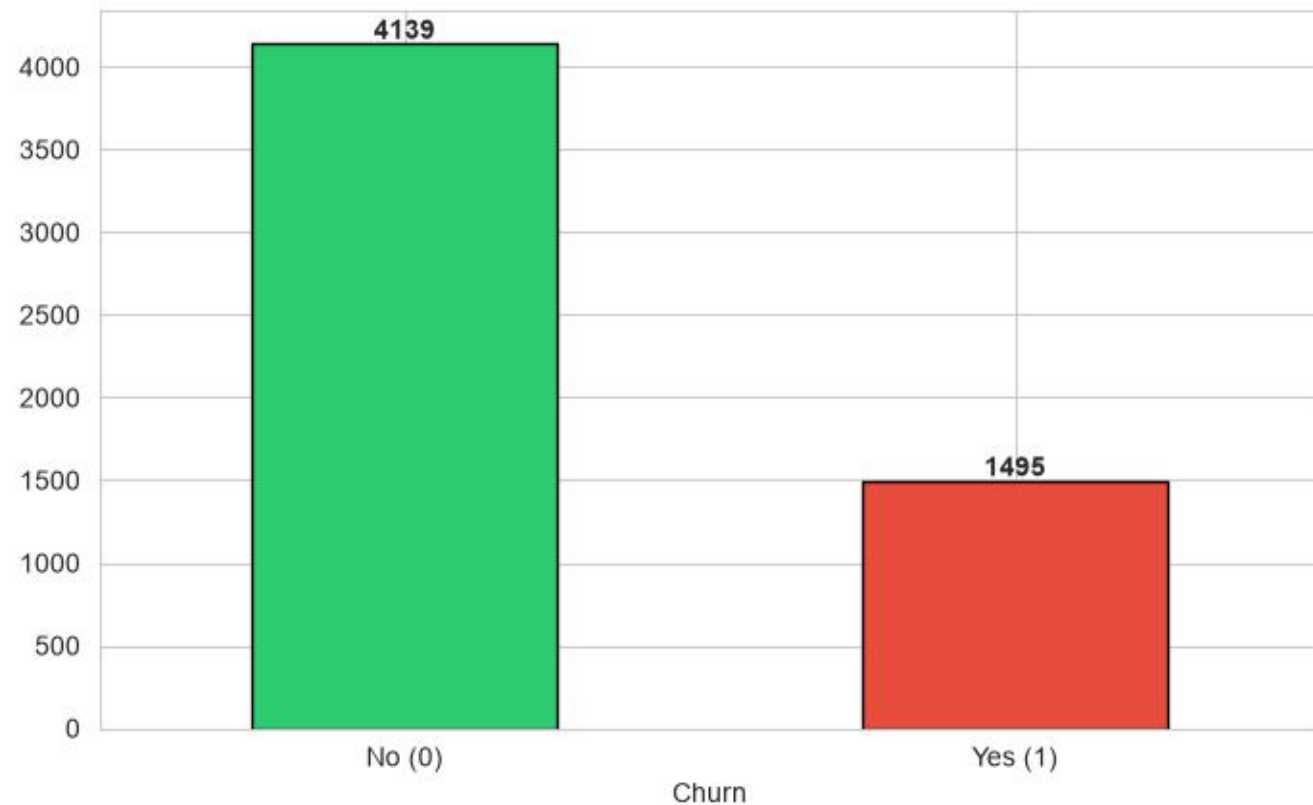

Matriz de correlación (variables numéricas)

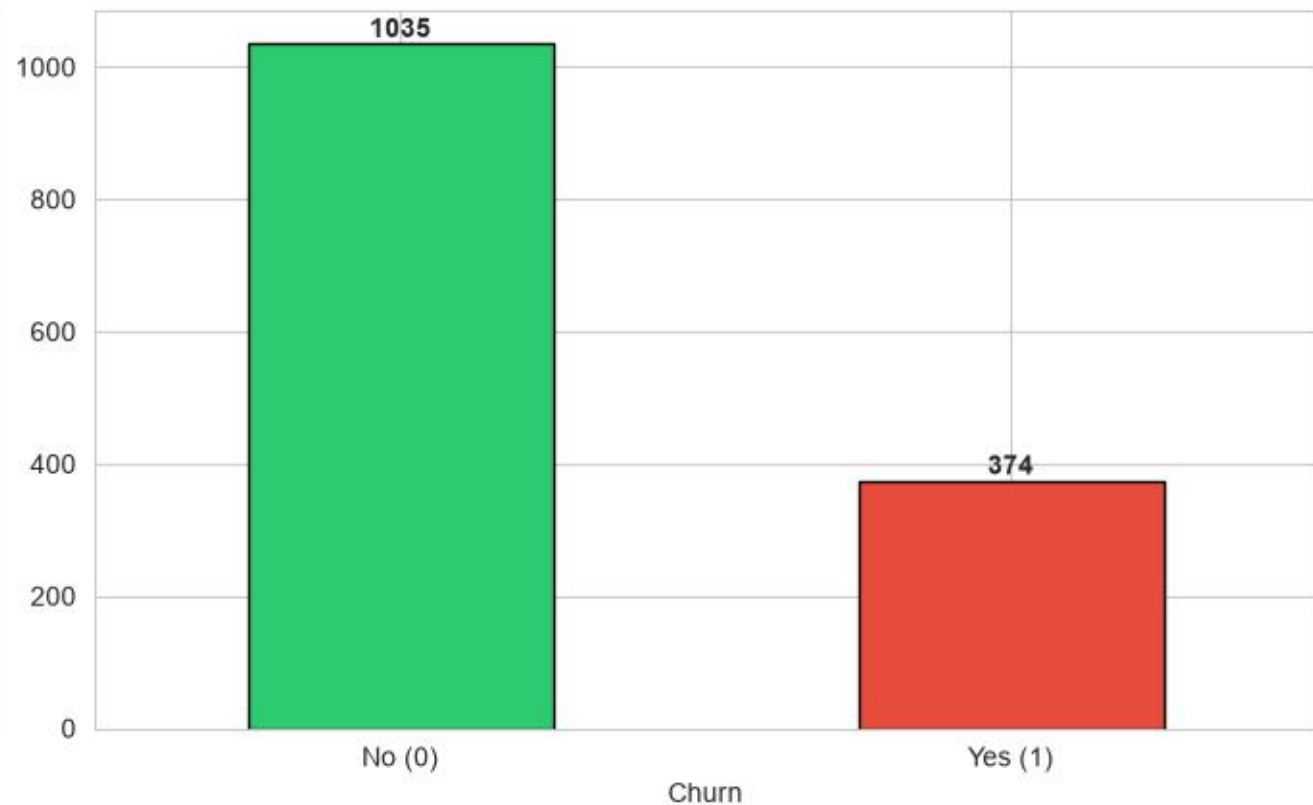

Distribución de Churn tras la división estratificada

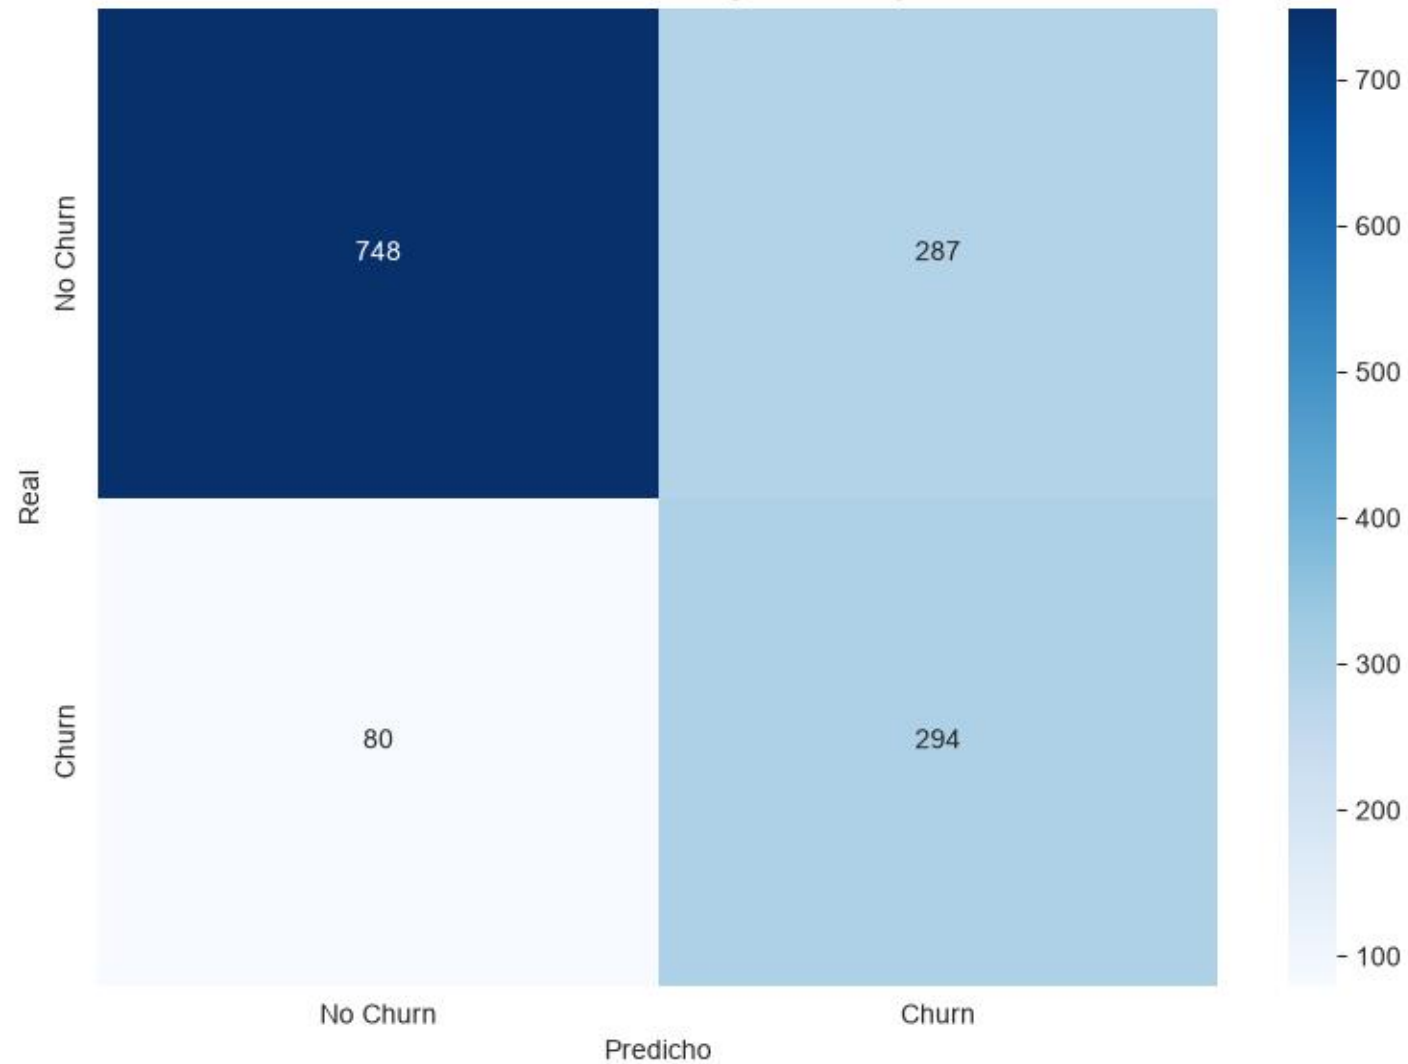

Distribución de Churn en TRAIN

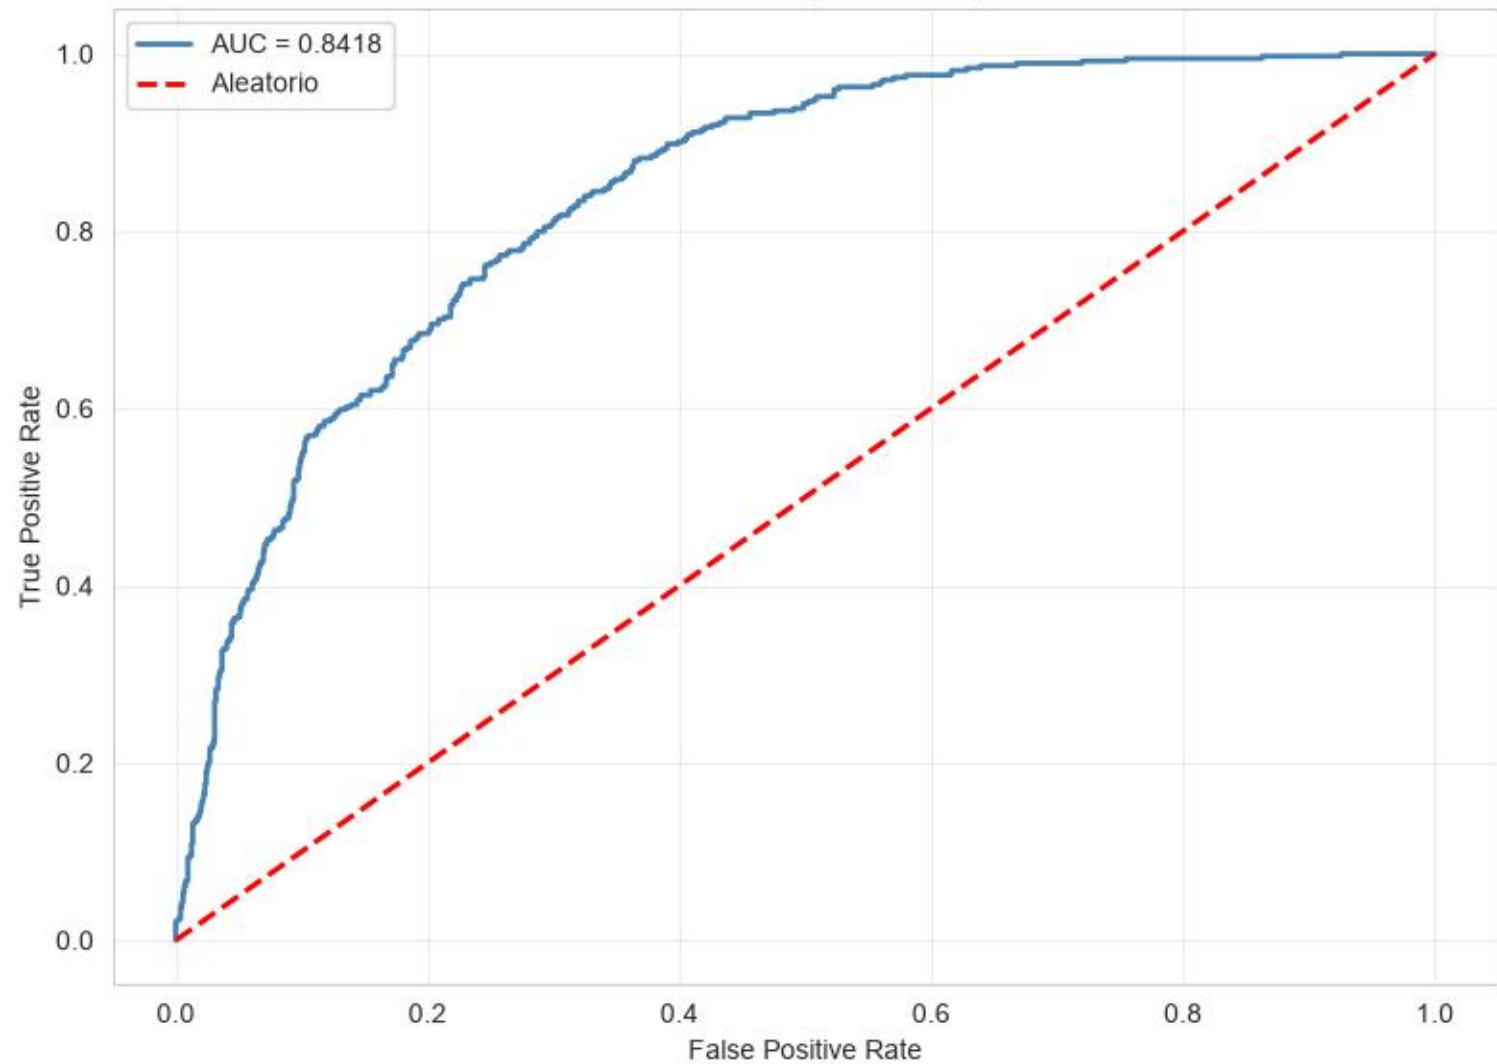

Distribución de Churn en TEST

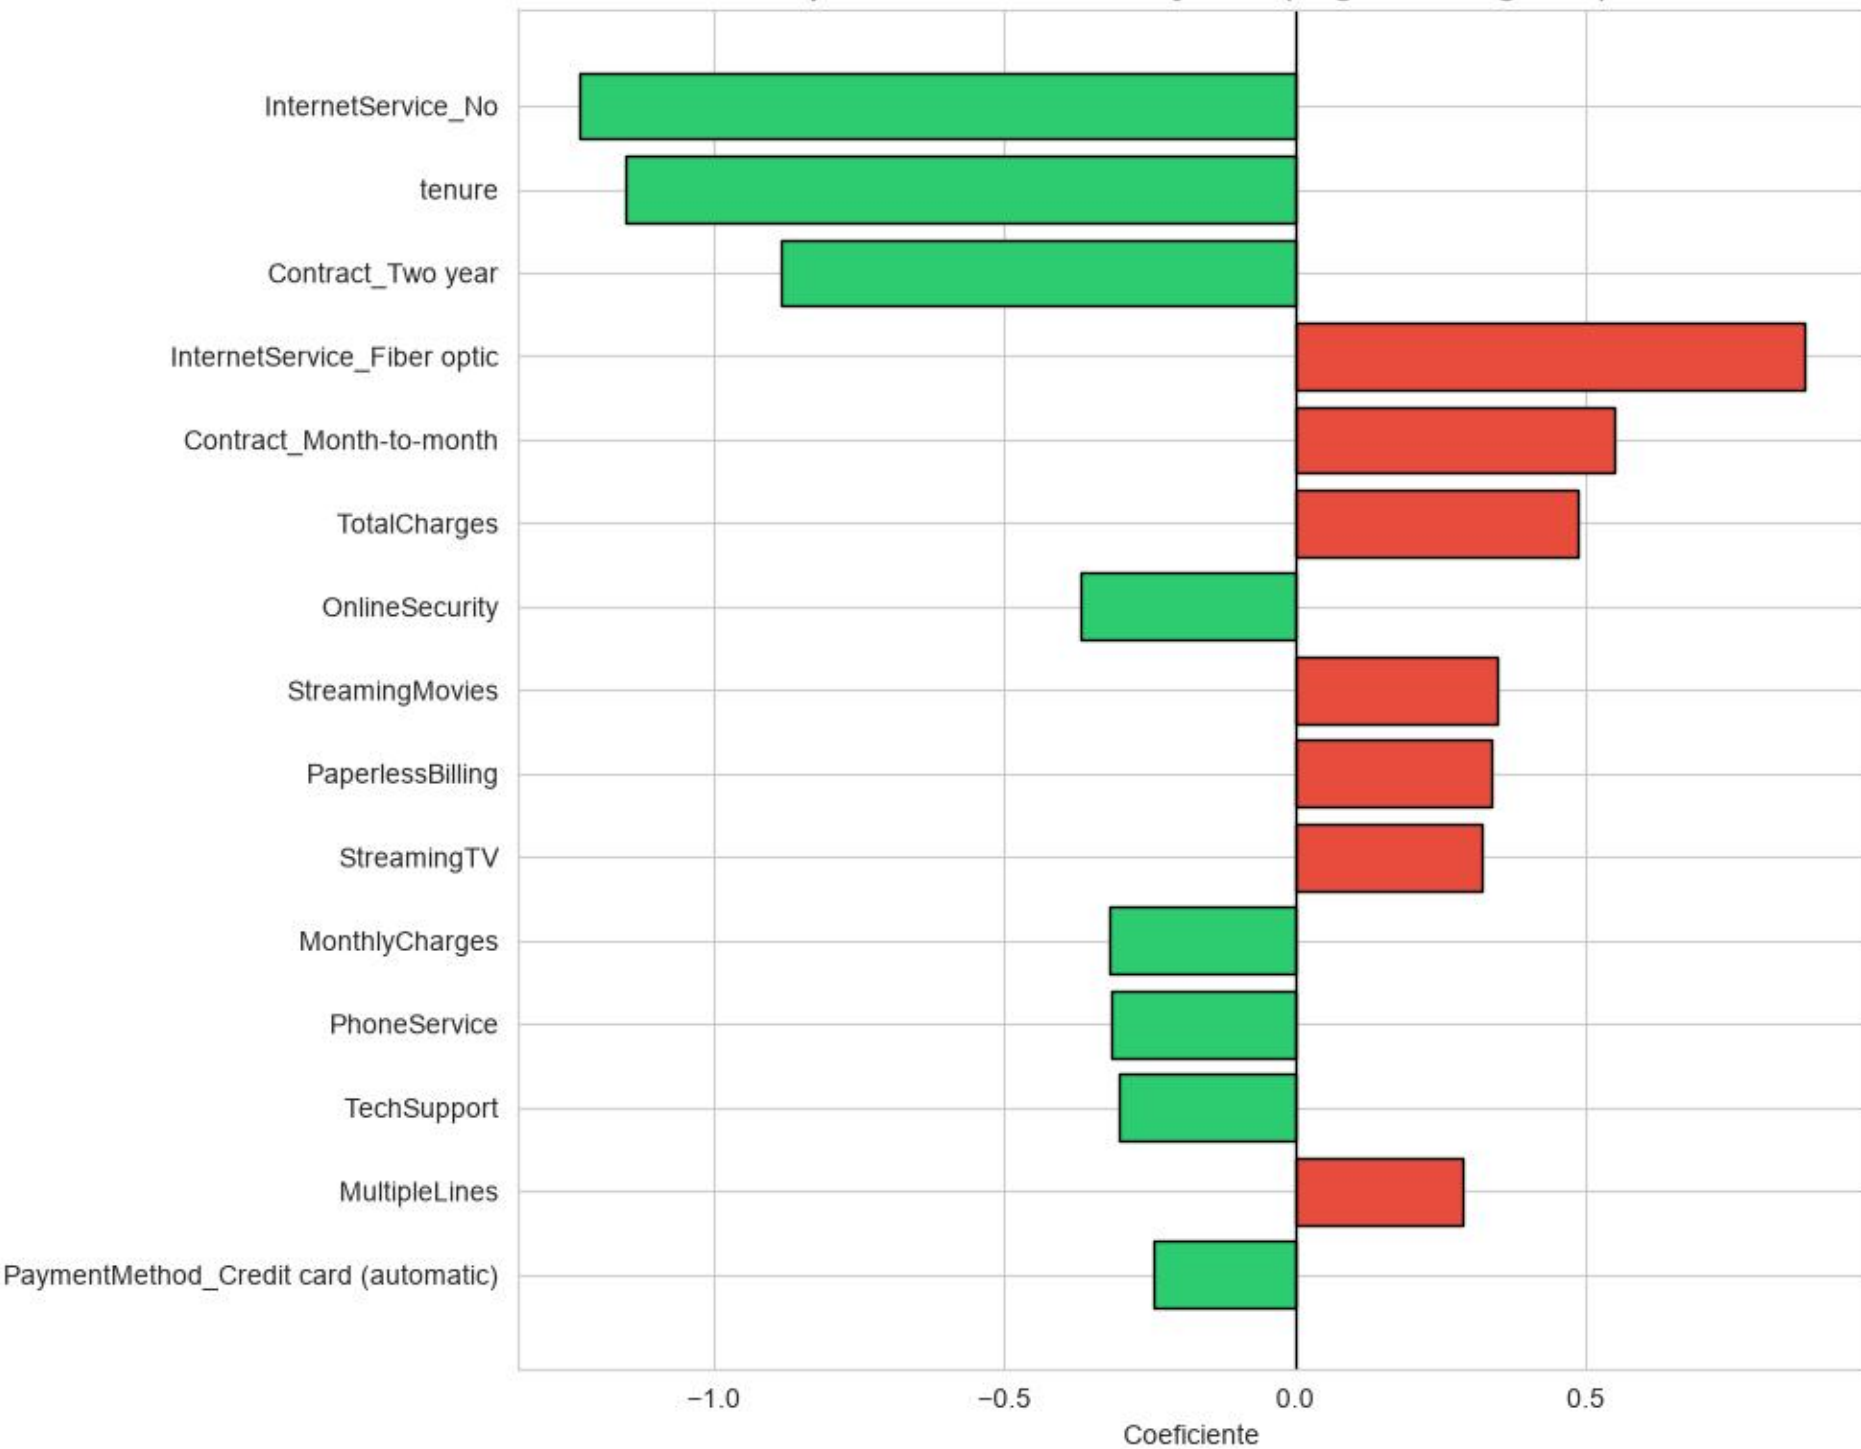

Matriz de Confusión — Regresión Logística

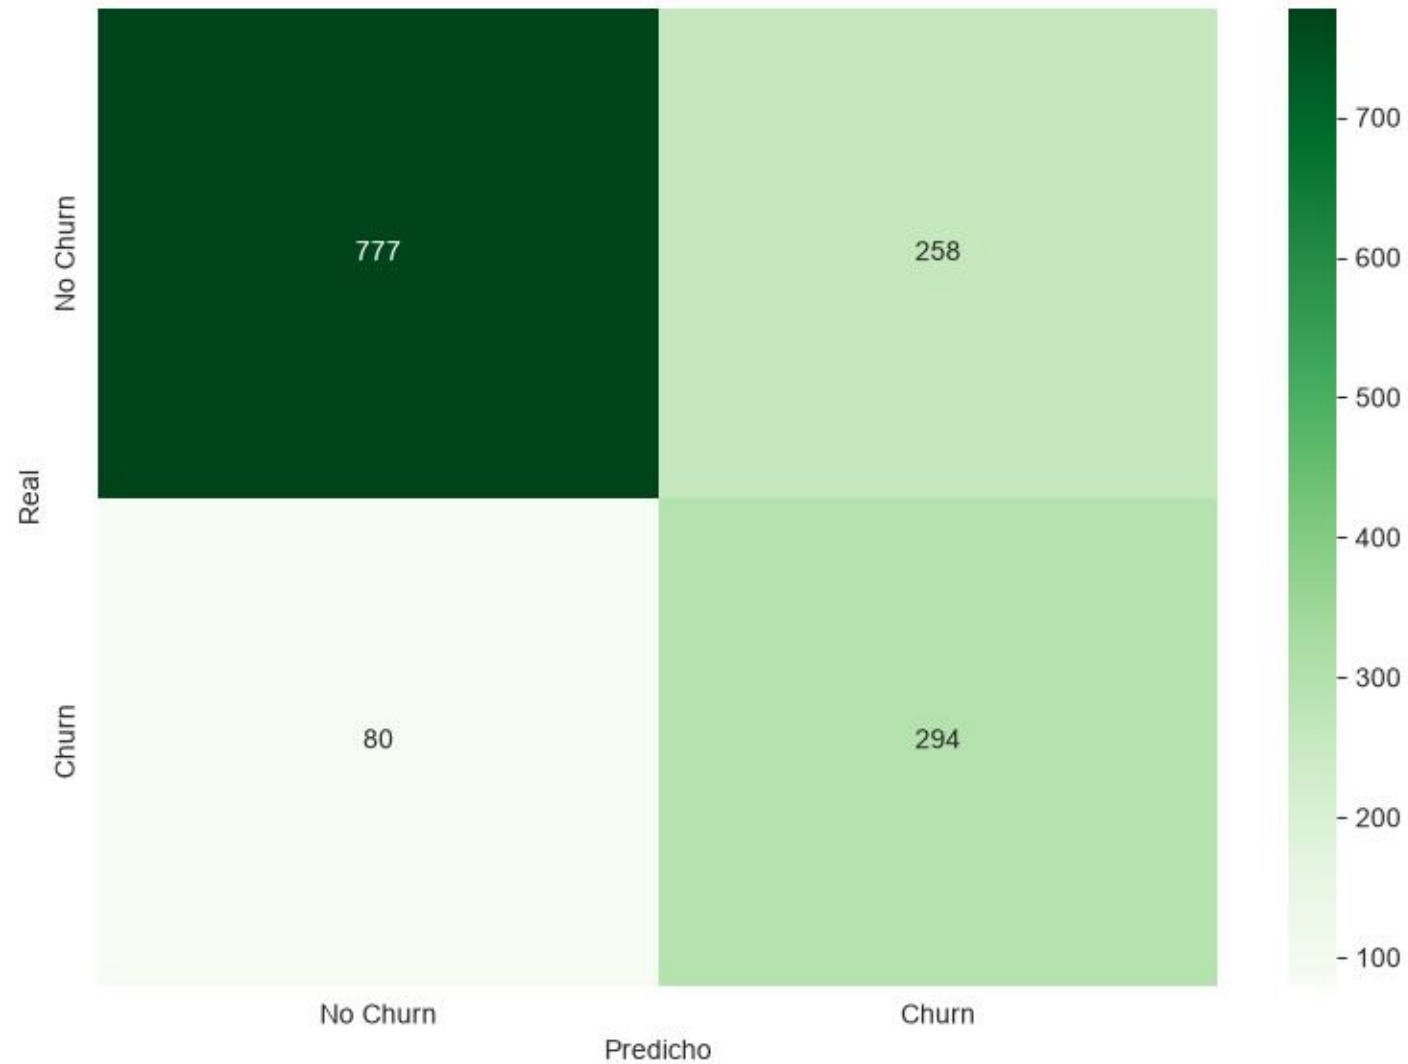

Curva ROC — Regresión Logística

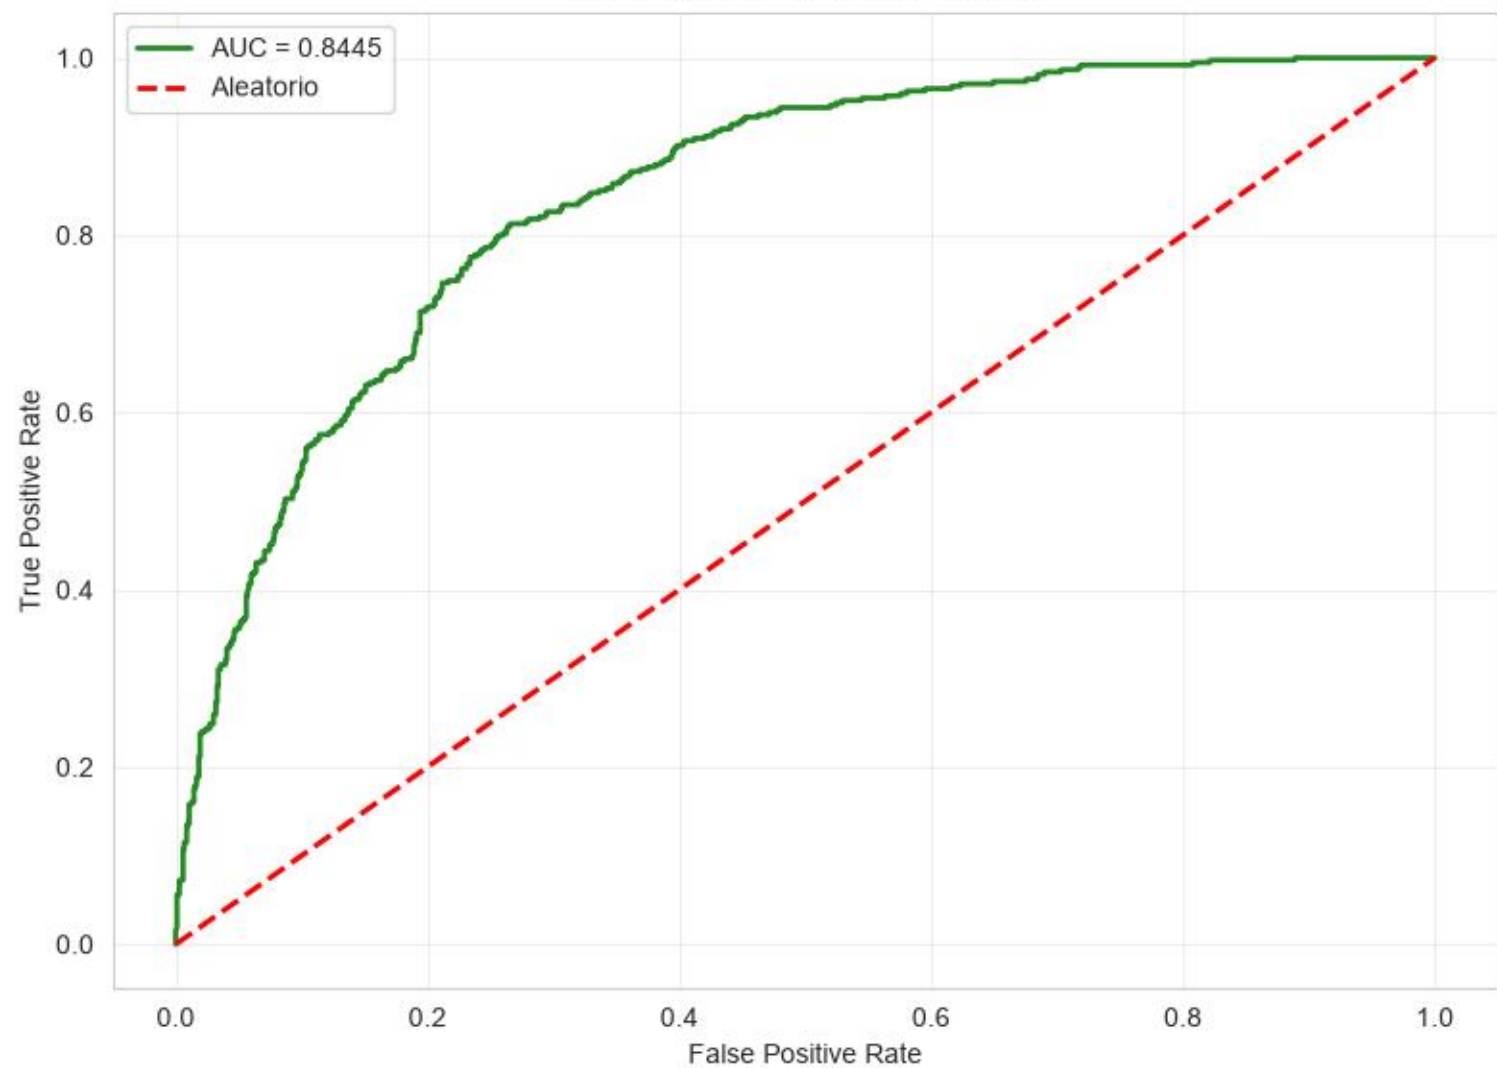

Top 15 variables más influyentes (Regresión Logística)

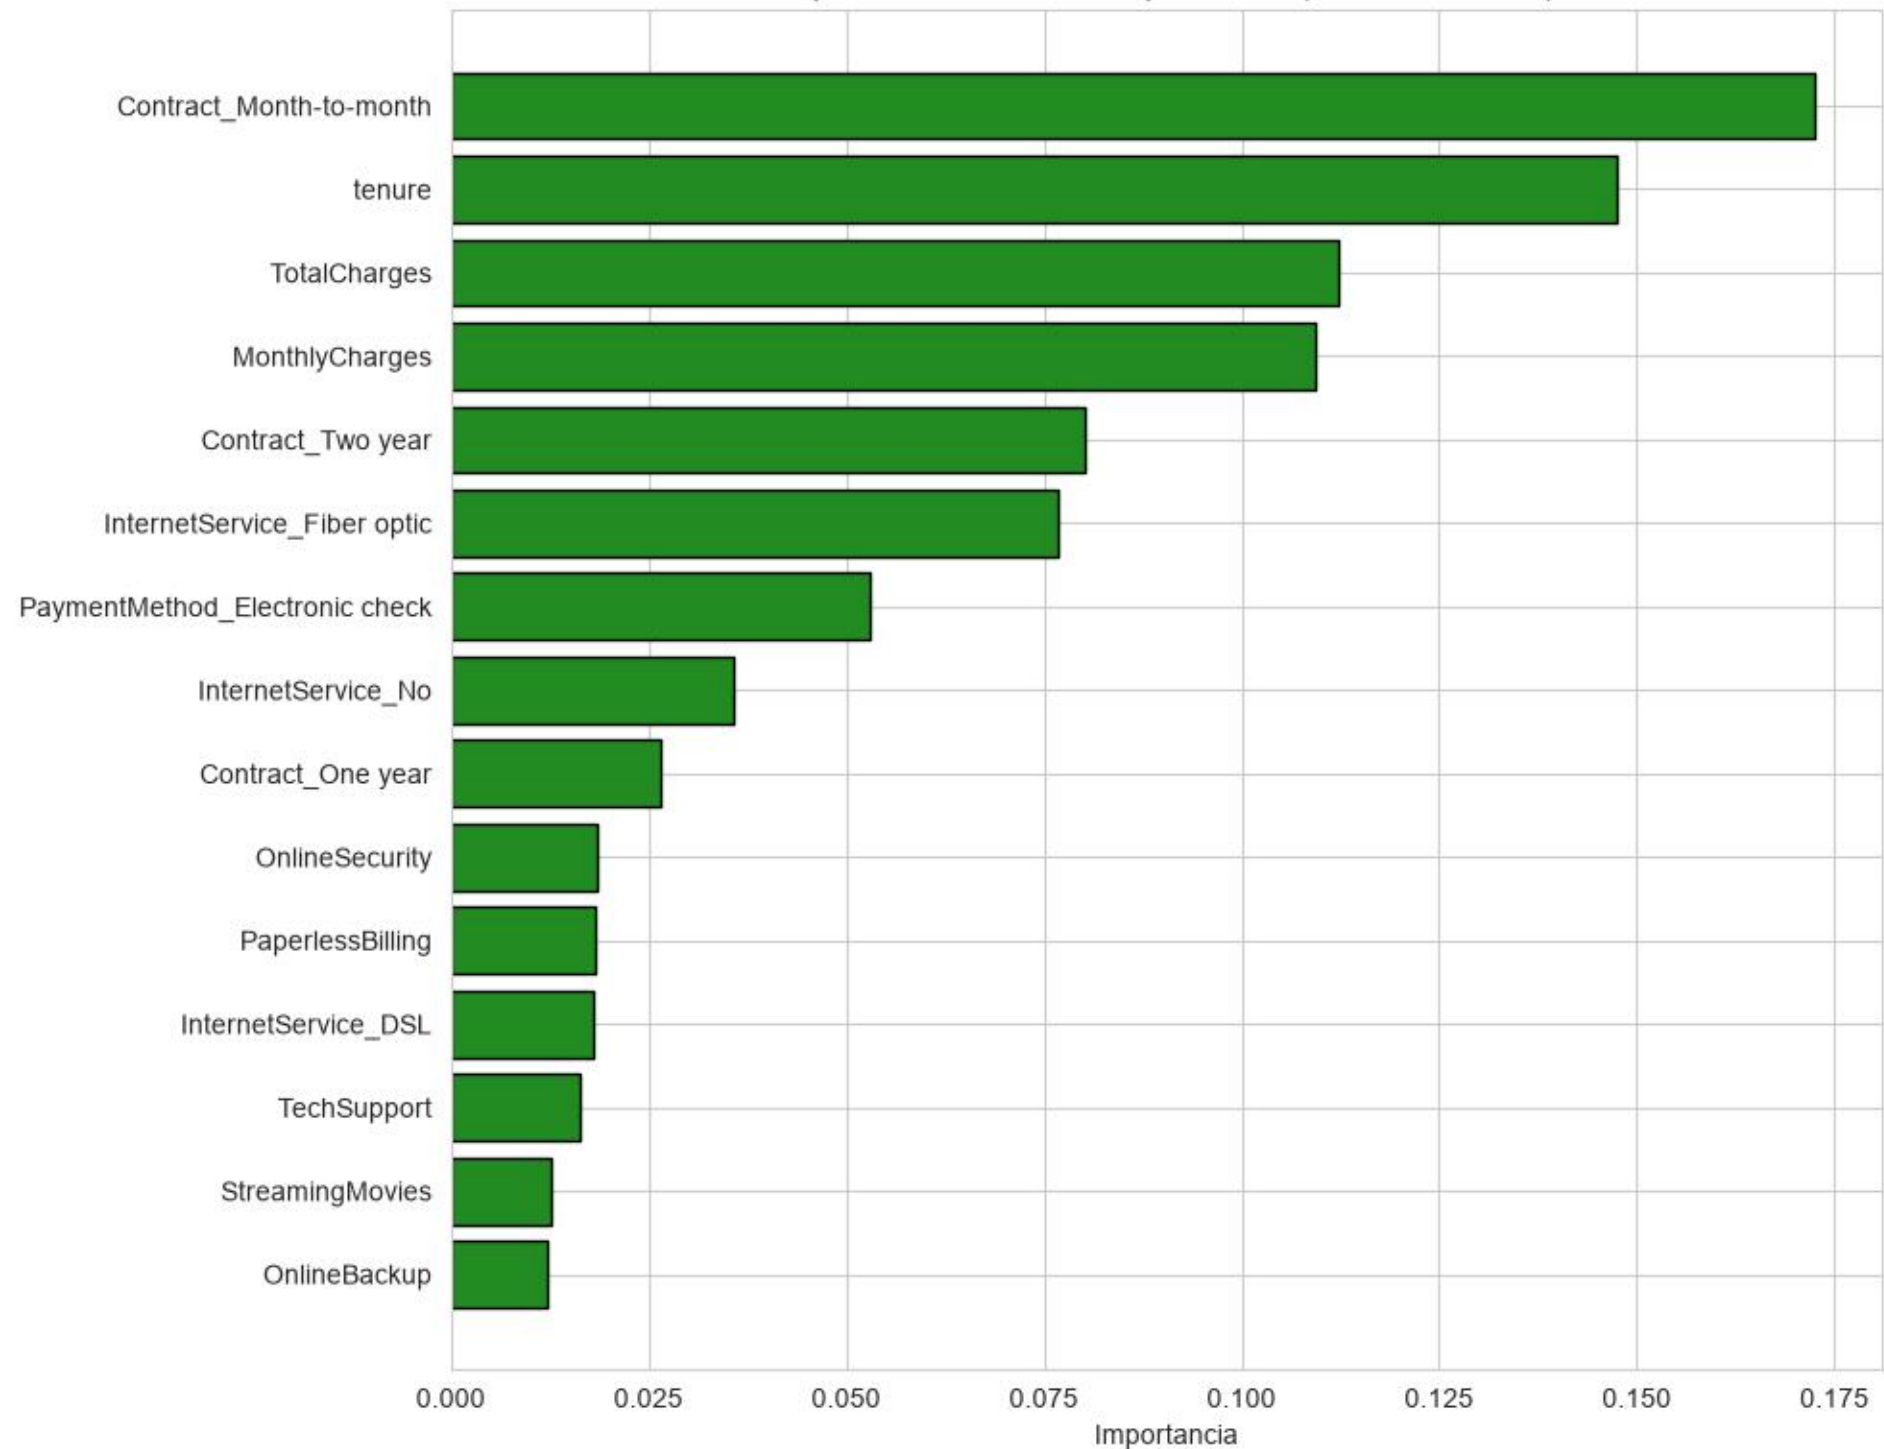

Matriz de Confusión — Random Forest

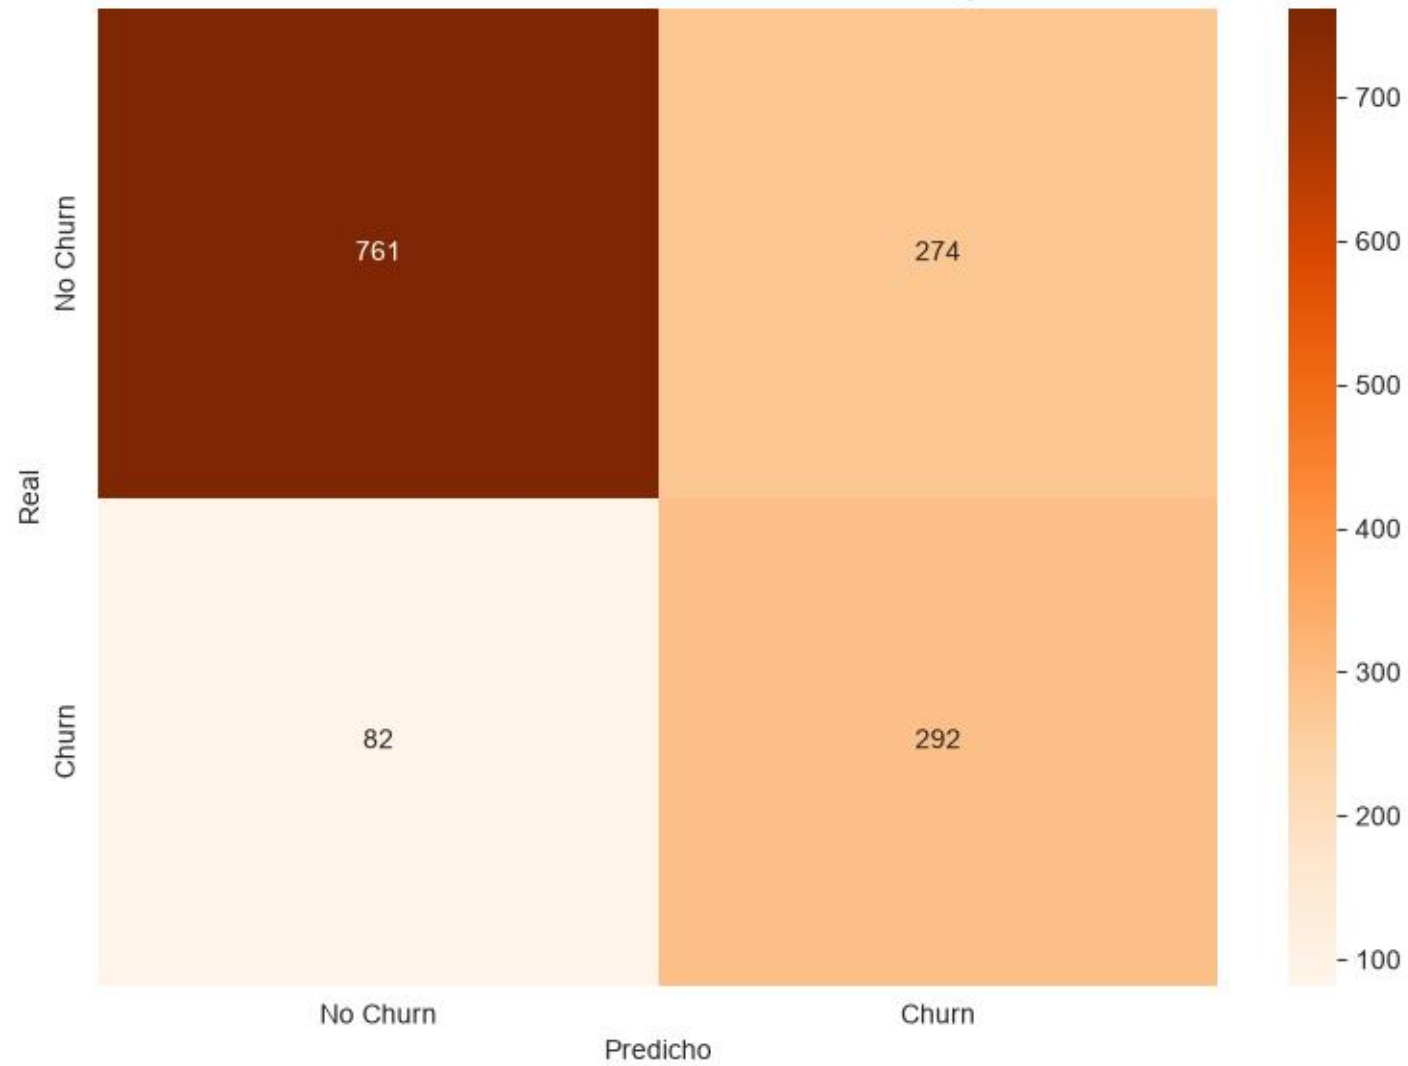

Curva ROC — Random Forest

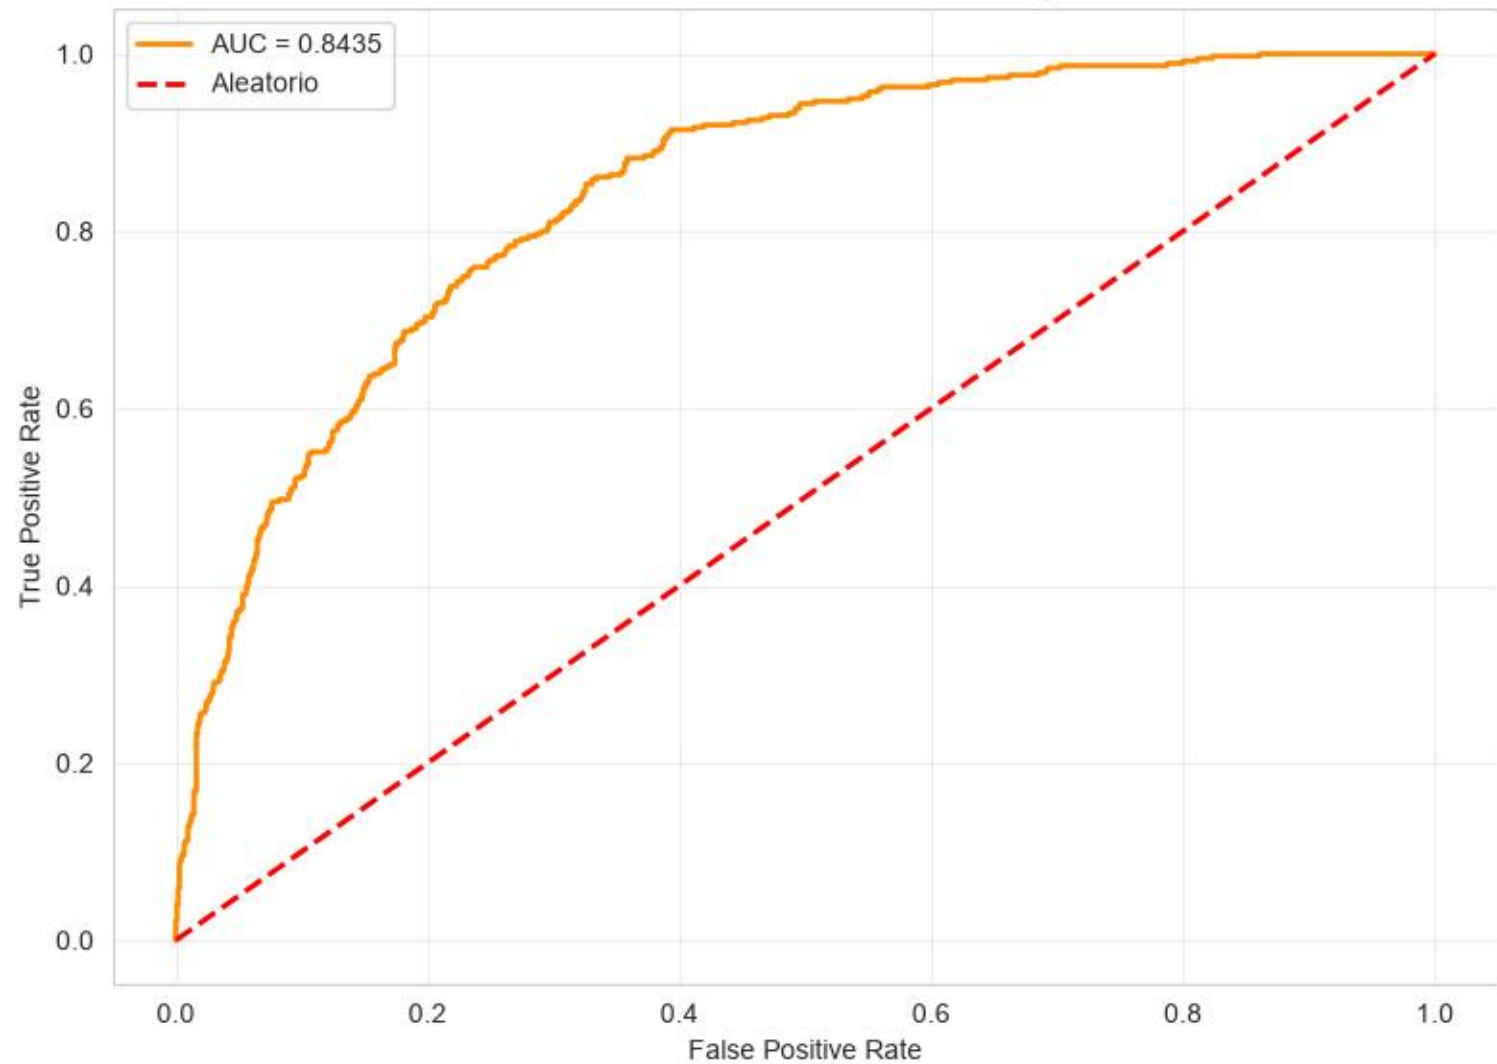

Top 15 variables más importantes (Random Forest)

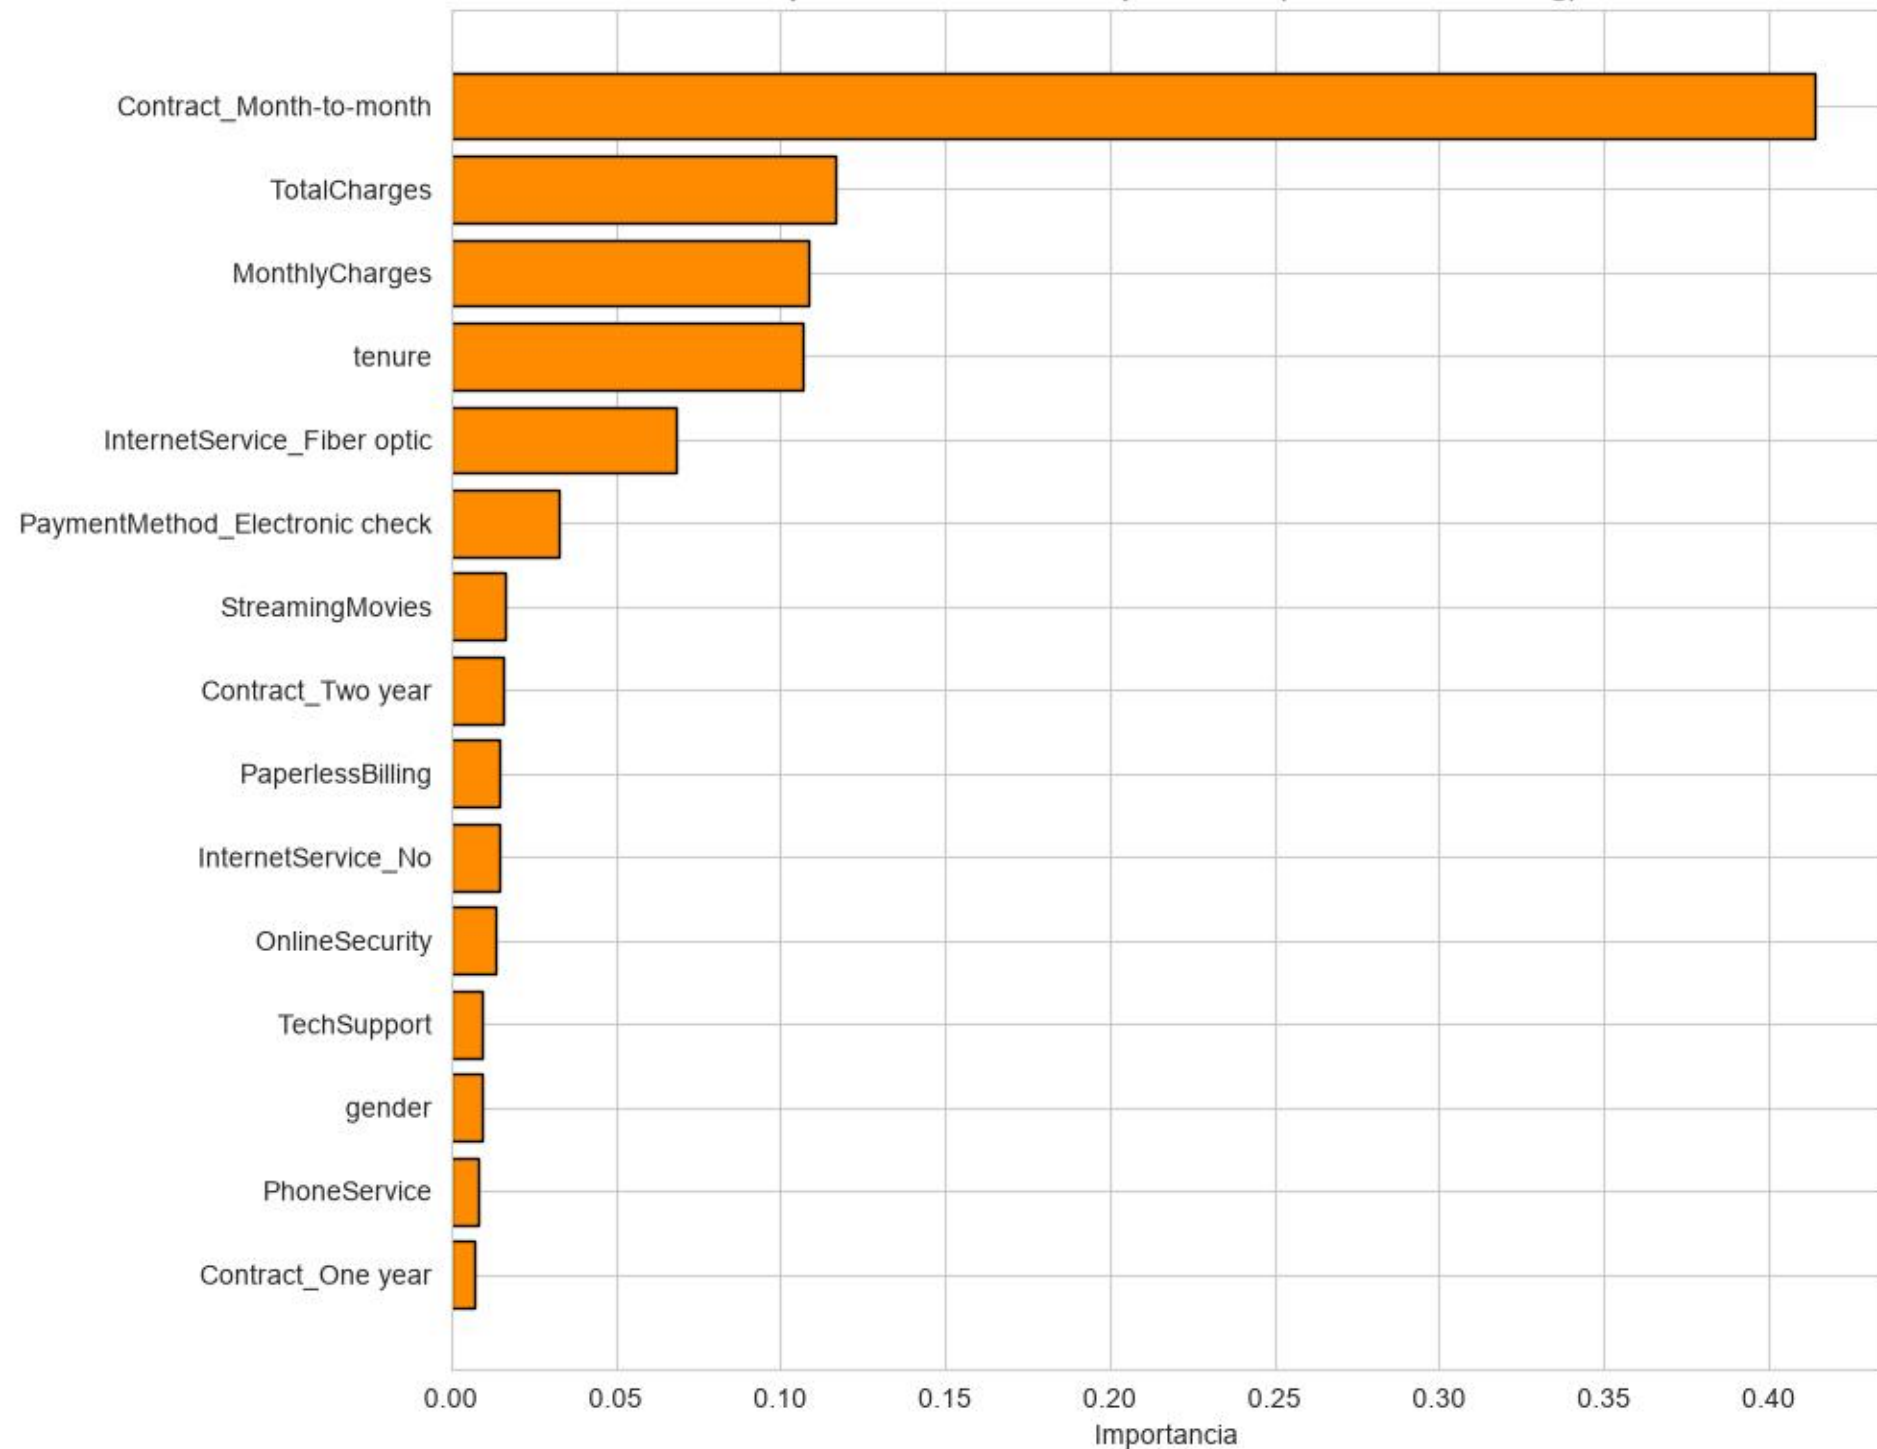

Matriz de Confusión — Gradient Boosting

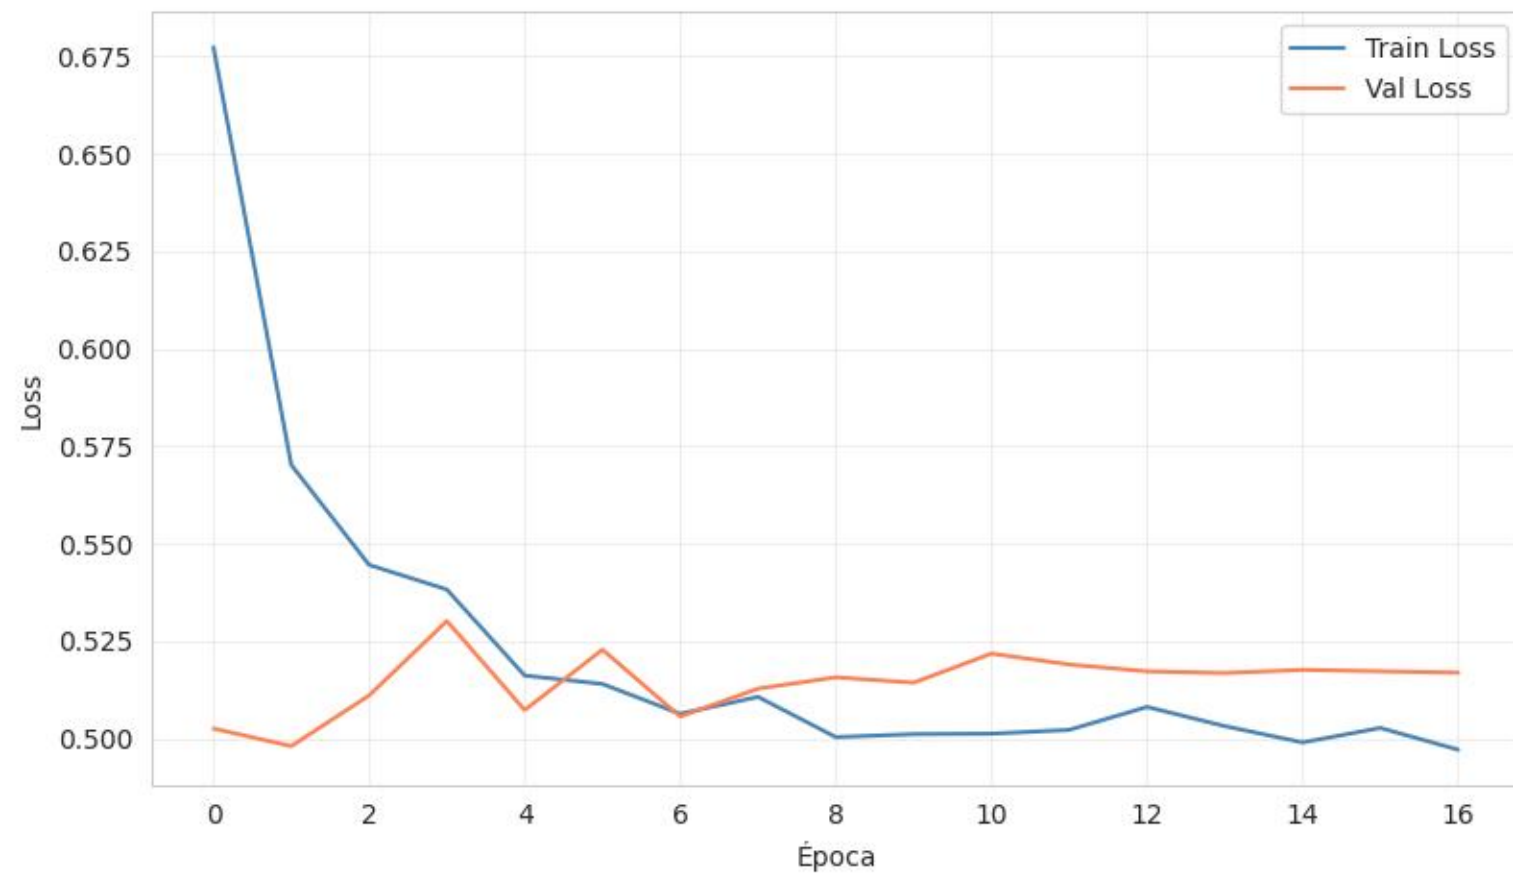

Curva ROC — Gradient Boosting

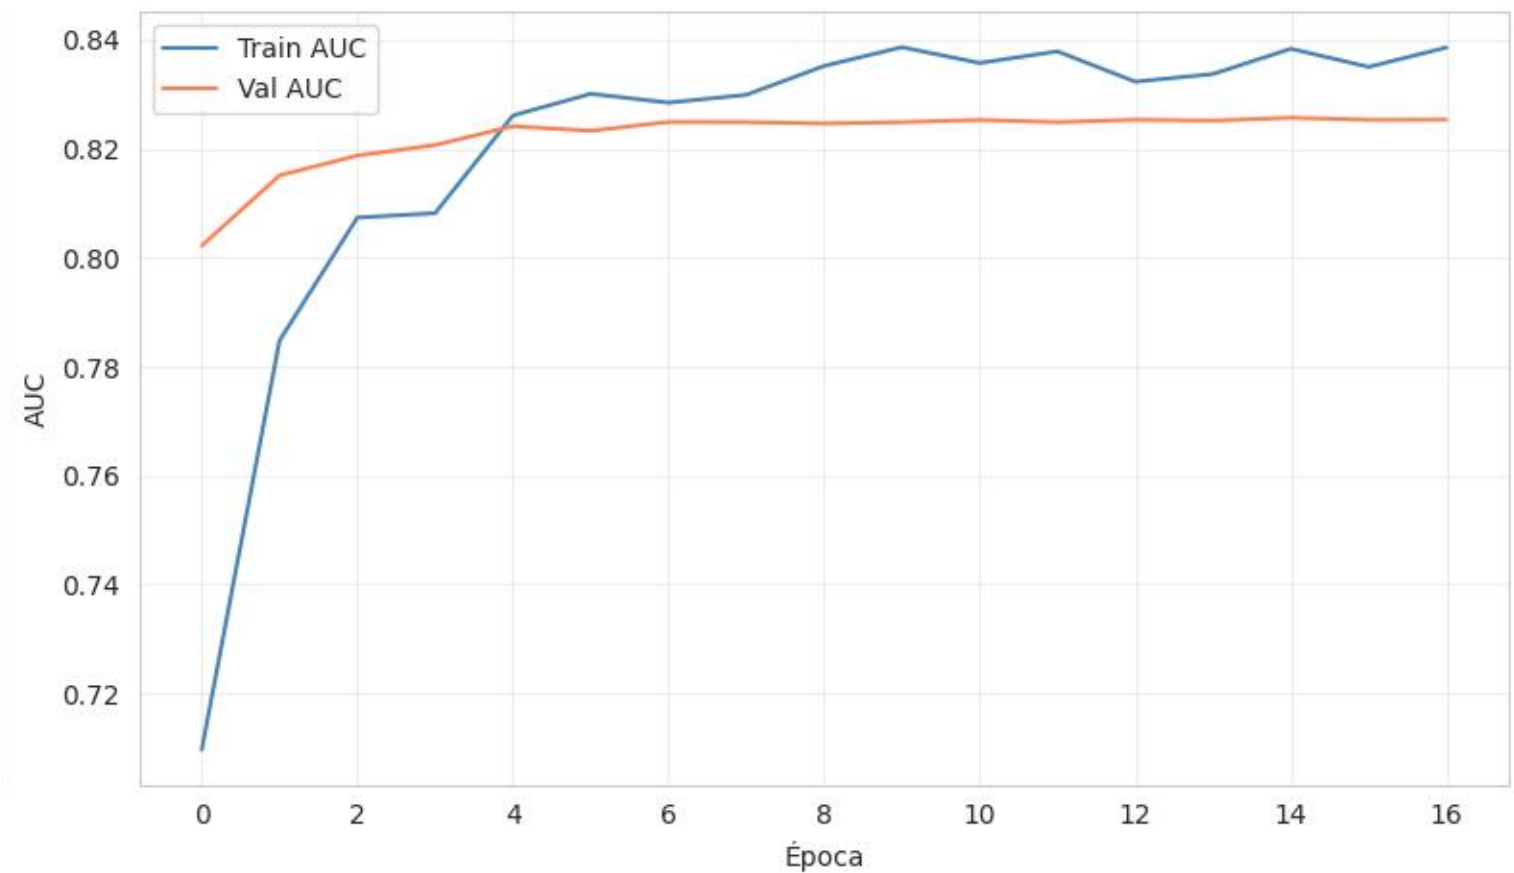

Top 15 variables más importantes (Gradient Boosting)

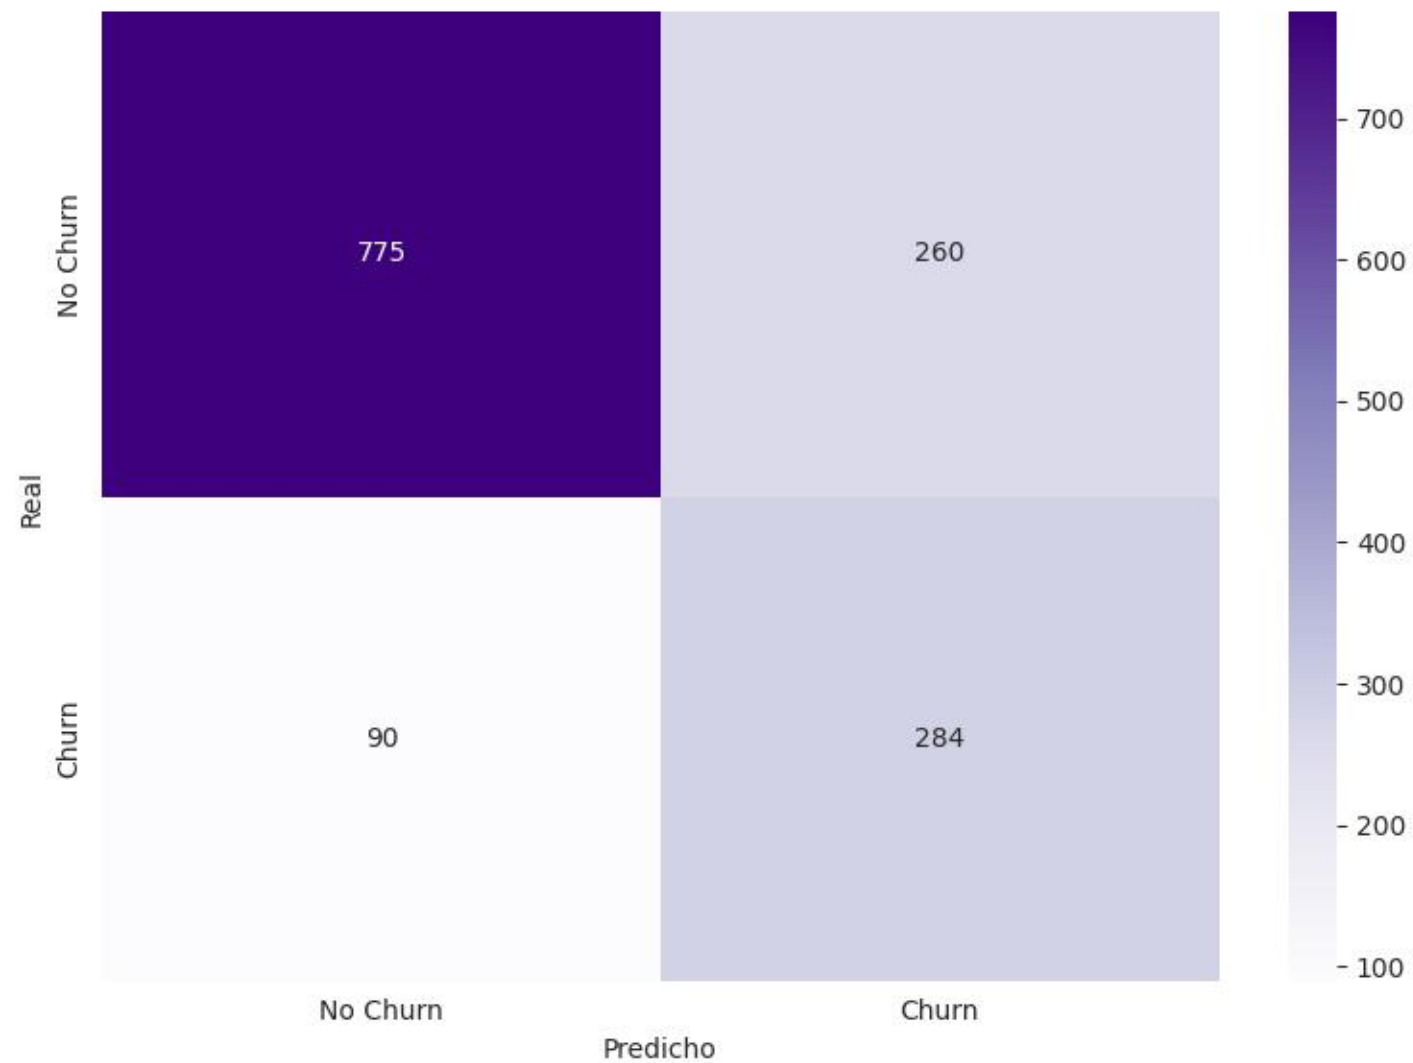

Pérdida durante el entrenamiento

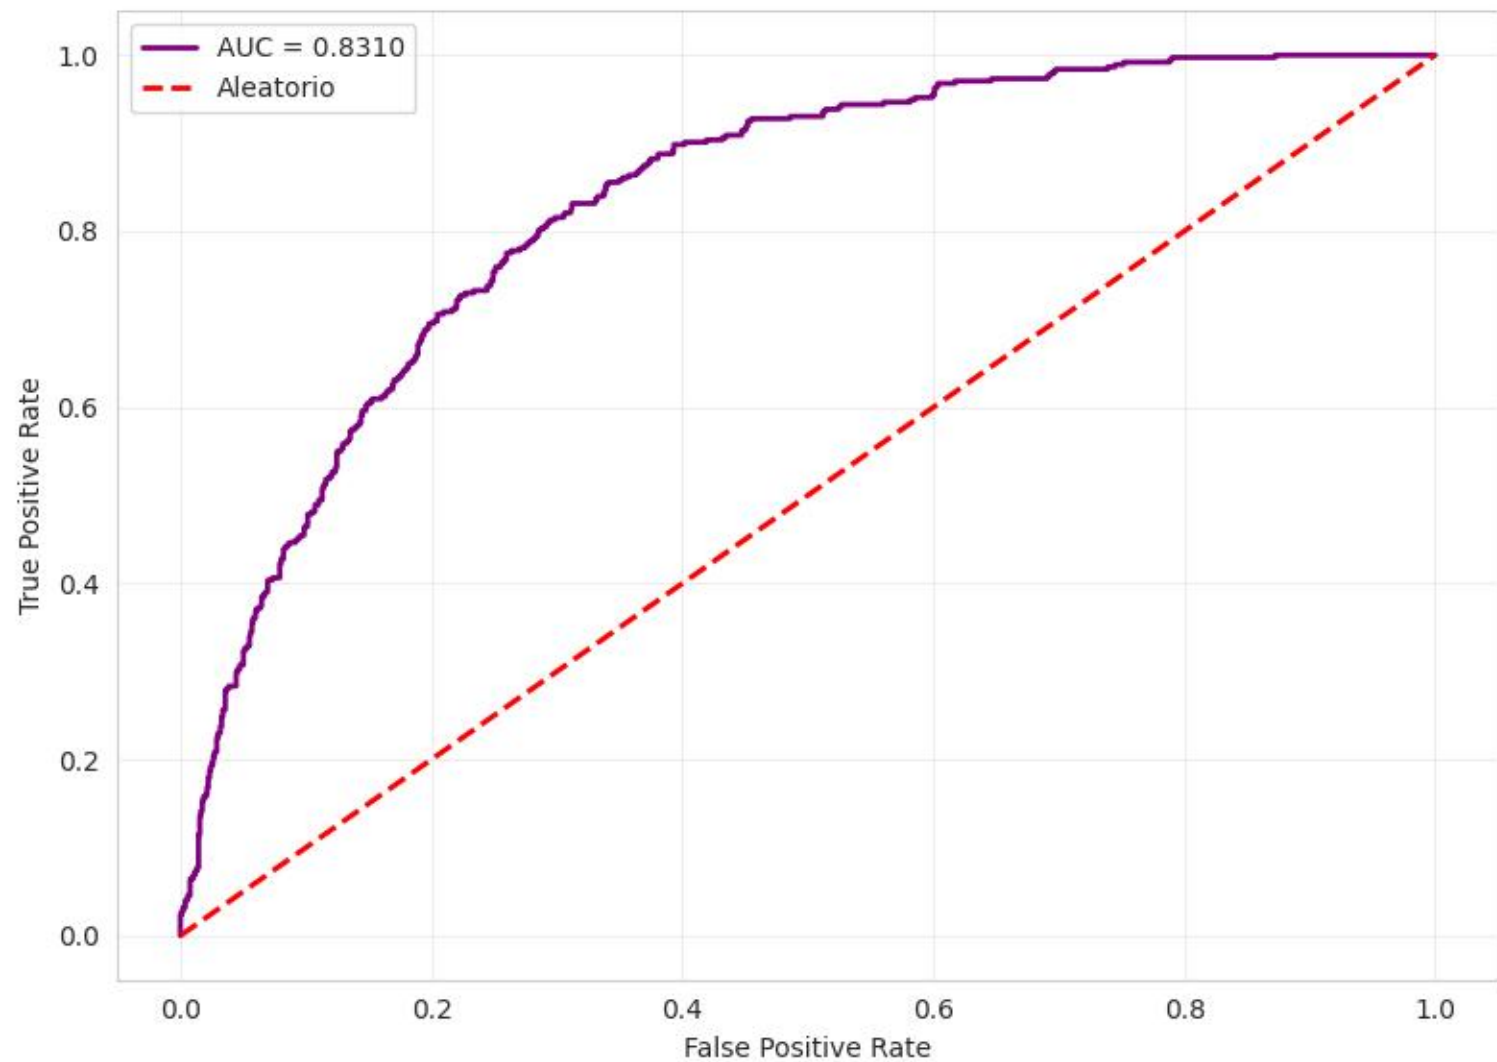

AUC durante el entrenamiento

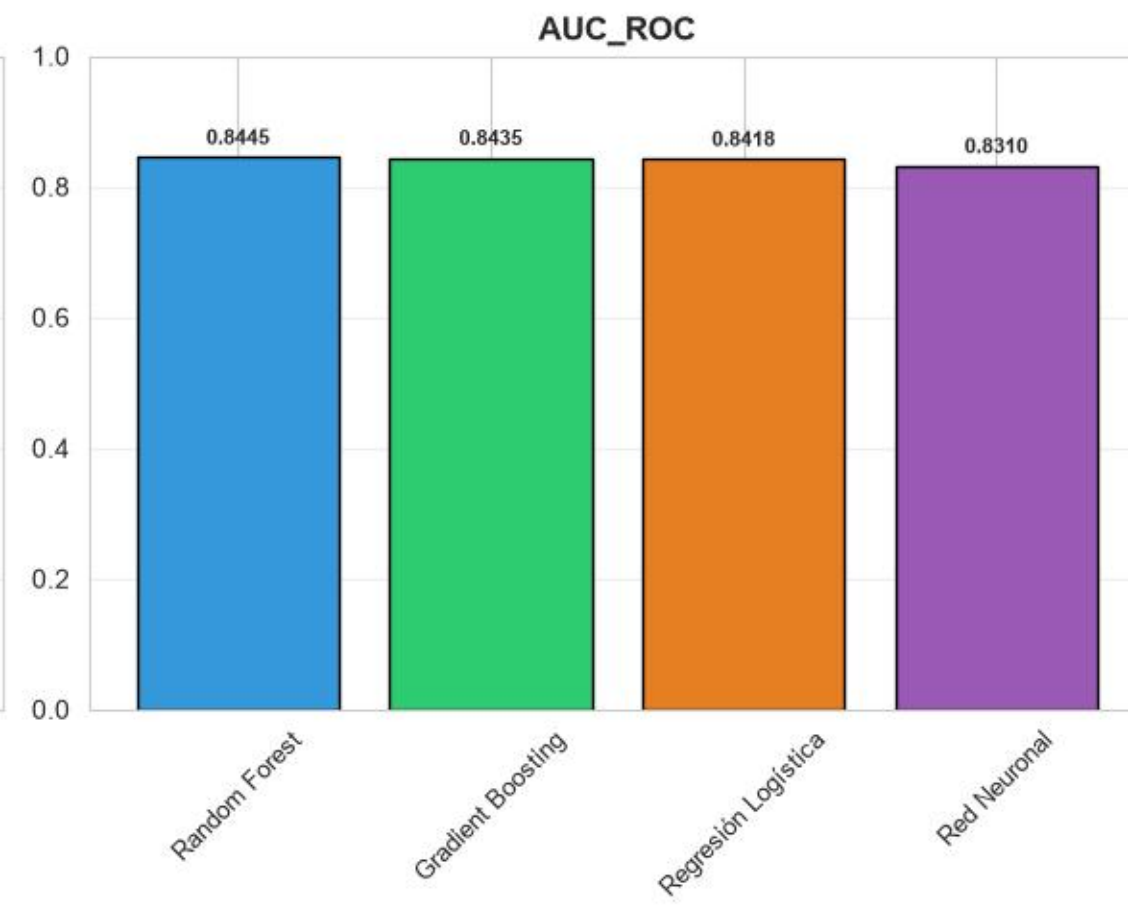

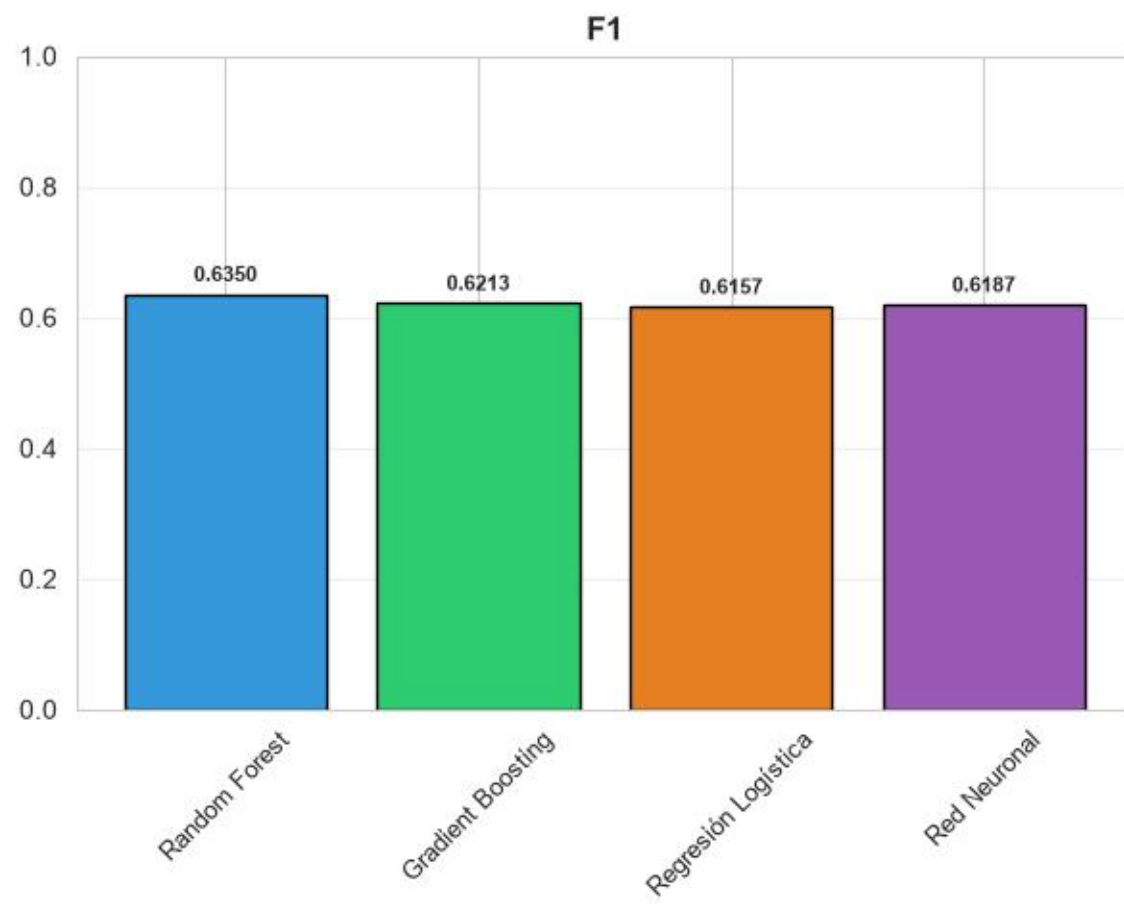

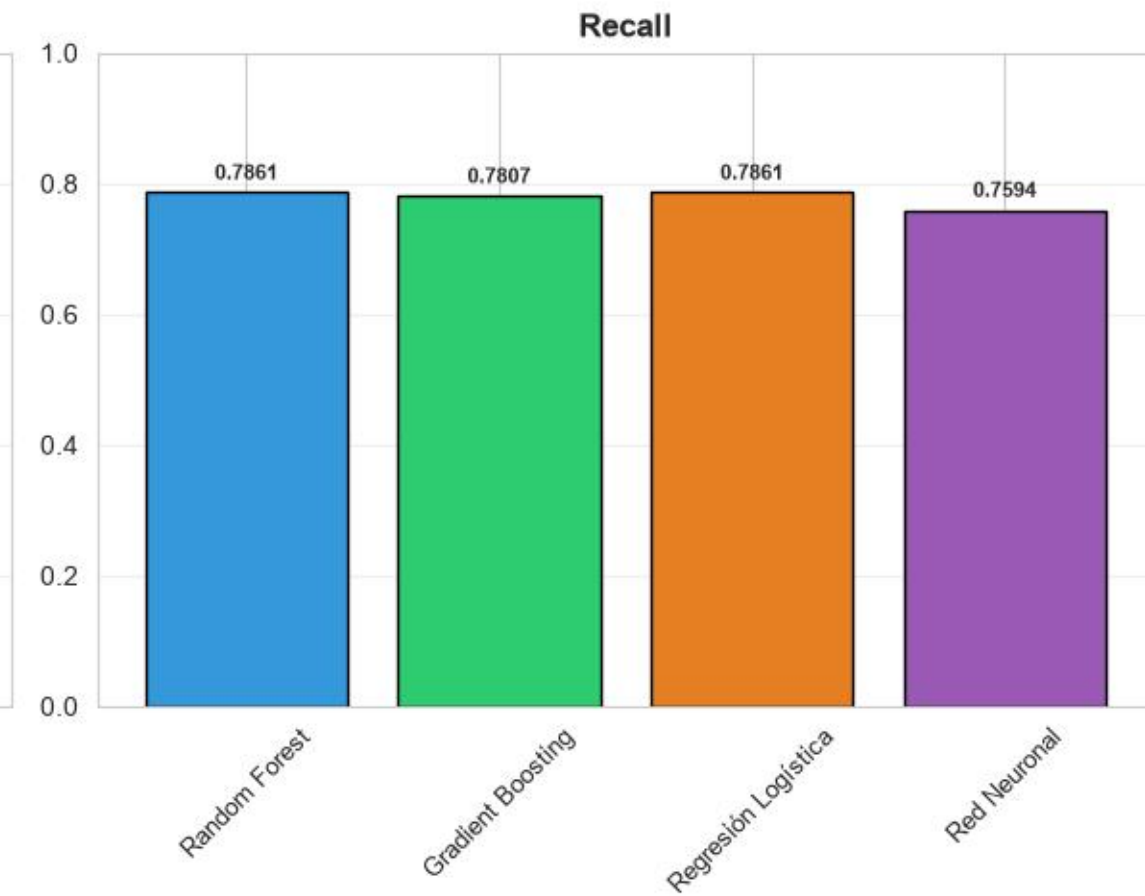

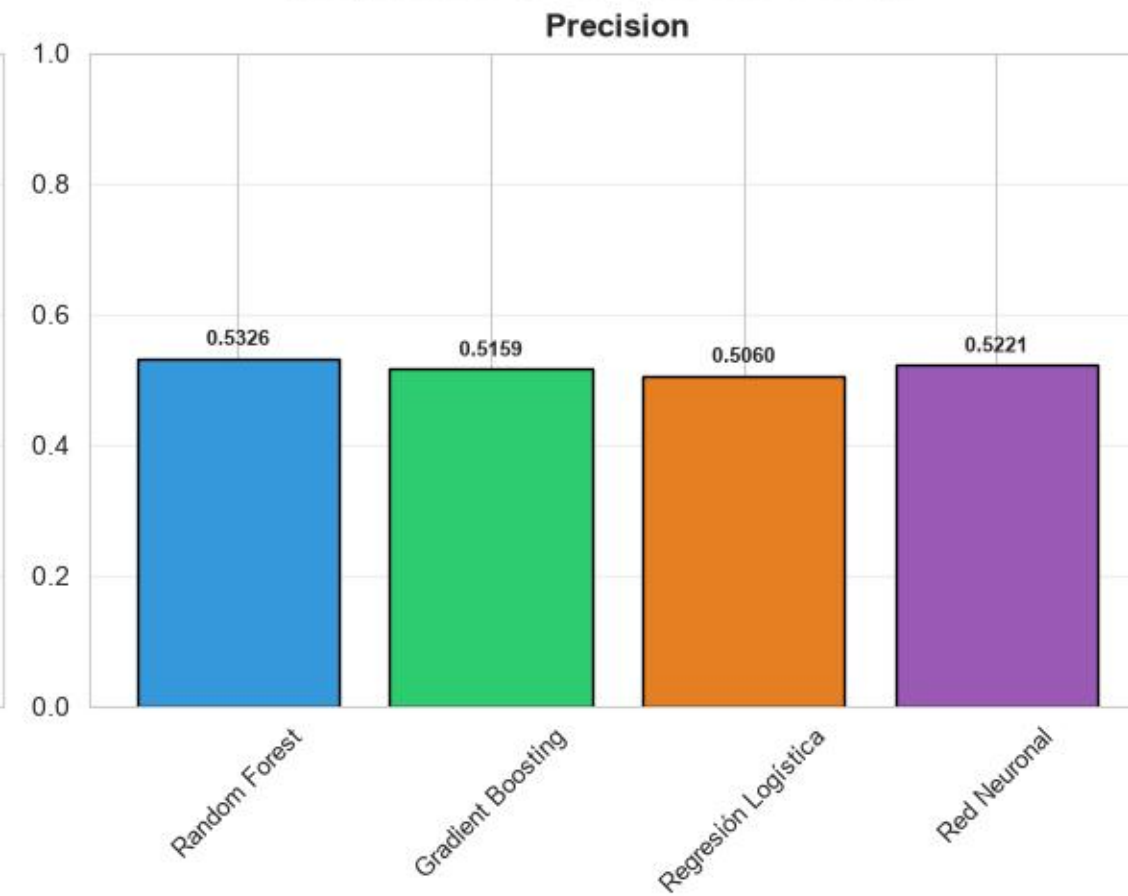

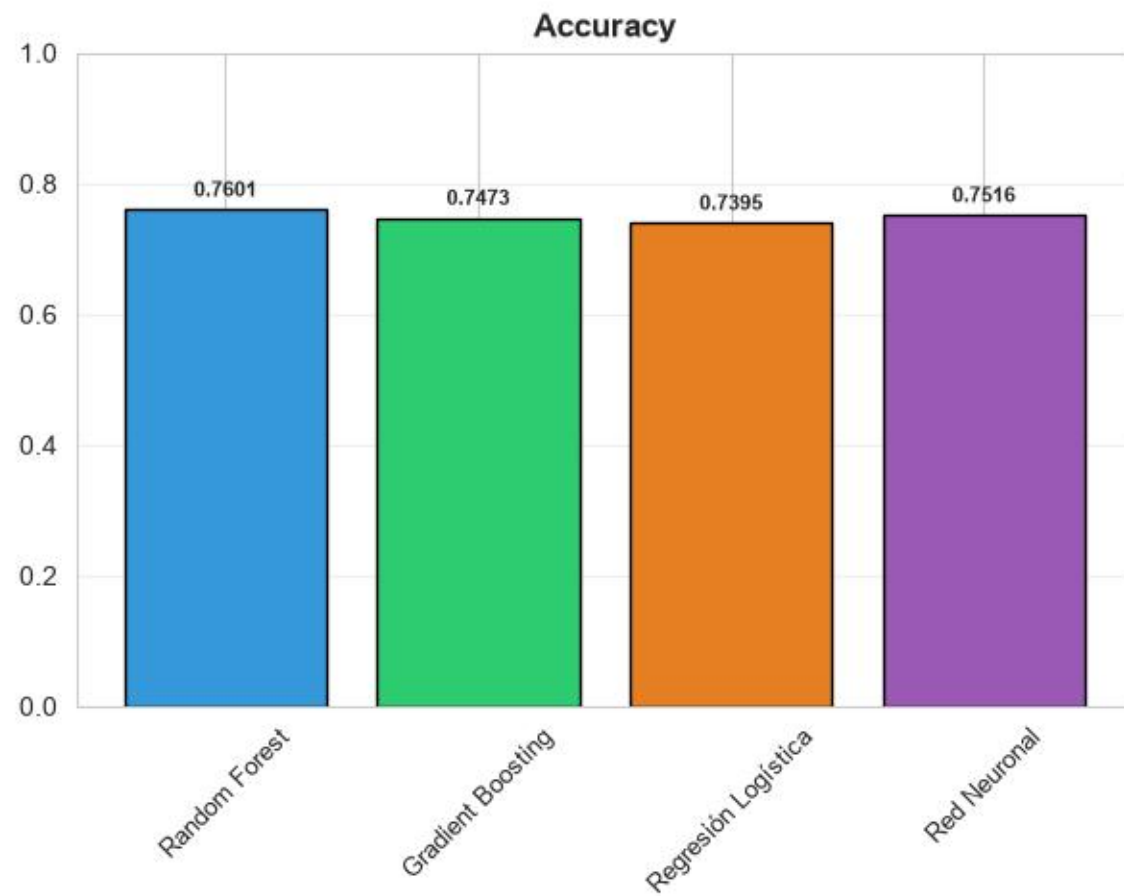

Matriz de Confusión — Red Neuronal

Curva ROC — Red Neuronal
